# Velando® Quick Loader

Vertical Freezers

Better merchandising  
from top to bottom

**Evolution6**  
in store, naturally...

New LED luminaires integrated in High Efficiency Frame

Pure black door design allows the merchandise to come to the fore

Upper doors serve both for shopping from top shelves as well as from bottom baskets

Enhance sales on so many levels with Velando Quick Loader

ERGONOMICS  
MERCHANDISING  
VISIBILITY

High footprint utilization

Shopping pleasure

**Experience a cabinet that's loaded with benefits**

The new Velando® Quick Loader vertical freezer brings together all of the features needed for the ultimate shopping experience – all in perfect harmony. Advanced, integrated LED illumination and a large display area allow for attractive, uninhibited presentation of multiple product segments, with premium products on top shelves and bulk products in the bottom basket. The ergonomic design also facilitates easy product loading for store staff, and features like a unique double door system and elaborated air management help ensure the perfect balance of performance and efficiency.

# Premium design for premium sales

The Velando Quick Loader vertical freezer brings elaborate and well-balanced cabinet design into a variety of store layouts. Discover how its advanced features can help drive your business.

## Easy merchandise segmentation

Upper shelves provide the best visibility, making them ideal for premium products. The bottom basket provides ample space for bulk products.

High footprint productivity

Upper part:  
630 liters/running meter\*

Bottom baskets:  
175 liters/running meter

\* Values valid for line cabinets with 2,220 mm height

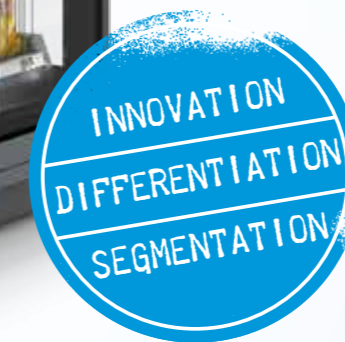

## Enhanced shopping experience

- Both cabinet sections enjoy a large display area
- Easy to reach merchandise through upper door
- Superior integrated LED illumination
- Inviting panorama sidewalls

## Improved loading ergonomics

- Easy-to-reach upper shelves
- Quick and easy bottom loading for store staff thanks to basket drawer
- Basket load up to 80 kg

*Easy & time-saving access for reloading products*

Cabinet High Efficiency Frame (HEF) Anti-Fog (AF) door

## Optimal energy efficiency

- High Efficiency Frame (made of glass-fiber reinforced plastic) with low energy consumption
- Reduced cold losses during shopping and loading, thanks to unique double door system and elaborated air management
- High evaporating temperature according to E6 range standard
- Energy saving EC fans

# Better by design – down to the last detail

## The new Velando Quick Loader represents more than a new cabinet – it's a new approach to cabinet design.

Velando Quick Loader brings innovation and merchandising versatility to the frozen food area, with high-efficiency maximized use of footprint. And these benefits extend to a wide range of store layouts and requirements. A variety of options are available in terms of interior and exterior colors, cabinet length, crown ends, door designs and cool or neutral white LED illumination. In short, the unit offers all the features needed to support merchandising of all types of products in all types of stores.

### Design objectives

- Appearance in harmony with E6 design
- Presentation of premium and bulk products in one cabinet
- Comfortable and quick goods loading process
- Reduction in energy consumption

### Features

- Standard E6 aesthetics with large glass areas
- Two visually different merchandising sections
- Bulk section with telescopic basket-drawer
- High Efficiency Frame (HEF) with integrated LED illumination
- Standard E6, high evaporating temperature

### Customer benefits

- Improved merchandise visibility and accessibility for increased turnover
- Lowest specific footprint cost to present mixed product segments
- Increased staff productivity
- Reduced lifecycle costs

Compliant with the EU F-gas Regulation

2 lengths of crown-end cabinets
