Compact Line: Island freezers

# Grandor™

Flexible plug-in island in pure design

Natural refrigerant R290

Large storing capacity

Block layout options

# Reliability with performance

## Flexible solution for frozen food or minced meat

Low energy consumption and internal LED lighting make this classical cabinet an attractive and efficient option for retail customers. The availability of the block layout helps optimize floor space utilization, and the dual temperature feature allows for a wide range of applications.

To help enhance merchandising, lighted display headers can be used to display special promotions.

### Benefits at a glance

- Improved energy efficiency
  - Natural refrigerant R290
  - Sliding glass lids
  - Internal LED lighting (optional)
- Versatility
  - Various block grouping layouts
  - Large and flexible stocking capacity with baskets or wire dividers
- Simplified maintenance
  - Freezer or switchable version with maintenance-free skin condenser

# Compact, efficient and ideal for promotional use

### LED lighting

Energy saving LED lighting for excellent illumination of displayed product (optional).

### Sliding glass lid

Smoothly running sliding glass lids fitted with ergonomically designed handles.
